SAUCER SCOOP

SCOOP SNOOPS !!

..It has long been rumored that a UFO base exists in the area of Guadalajara, Mexico -- latest news from that site is that 18 adults have died since New Year's Eve from drinking 'apparently' adulterated alcohol..... From UFO to FlowerPot!! - "Mystery sphere" at Conway, Ark. turned out to be a radar device -- finder was allowed to keep same - wife promptly turned it into planter!! -- Widely circulating rumor has it that Gray Barker will take over Saucer News -- with Ray Palmer doing the commercial printing..Fact or ??? ...Singer Jimmy Rodgers is recovering from his near-fatal accident- which occurred recently in Los Angeles -- caused by being "Pulled off the road by an auto or something with very bright lights" ... and has NO memory of what actually did happen (he was found unconscious in his PA KED car and was on the critical list for more than a week after undergoing brain surgery twice... MORE HOSPITAL NOTES # patients found dead in men's dormitory at St. Louis State School and Hospital... 1 clipping says quote:"THE patients were found dead without obvious cause" ... another clip states strangulation.. which sure as Scoop should be obvious???..... Then we have the "Screaming Deaths" in the news again!! "she emerged from the pool in 1963 ...gave a horrified look around, screamed for 10 seconds and died ..autopsy failed to show any cause for death." THEN ... her sister on Jan. 17, 1968 just did same thing...screamed and collapsed ... no known cause of death!!NORAD has an entire publication on UFO'S! Called AIRMAN (Official magazine of USAF) Write NORAD HQ in Colorado for FREE!! Recent ufo sightings at WANAQUE Research Grounds for Visiting UFO Pilots!! Strange though ... they are CHANGING THE GUARDS -- old ones gone who witnessed the last Flight of the Wandering Tourists! POWER FAILURES in the area about same time, also!... Power failures also occurred in portions of UTAH-IDAHO-OREGON-WYOMING- and MONTANA all on one night in December.... It was "speculated" that snow caused the lines to snap...(In all 5 states at once?) The Air Force will have it's Project Bluebook report ready in Feb. or March - write: USAFF -OIC HQ, Washington, DC 20330 Scoop can't wait to see how they manage to juggle the figures THIS time! C. A. Honey of the well known S.P. Newsletter in California is "out of Business" as far as Flying Saucers are concerned....and we are most sorry to hear it, and to see the change in his format... He said, "The time has come for us to "knuckle down" and start studying and seeking 'higher' knowledge and not continuing to devote time to "just another flying saucer magazine".... UFO FILMED WHILE MOVIE IS BEING MADE !!!!! YUP ! Actually happened! A Press News Release from UNIVERSAL PICTURES---- 'it' ducked behind Tony Franciosa's head!! Films of this have been offered to the Air Force... Occurred during filming of Universal's "A Man Called Gannon" near Camarillo, California - date of news release - 1/15/68 - full details next ish. This Scoop-Editor and Mr. Brad Steiger will be with Dr. Frank E. Stranges in Chicago in the very near future to film a TV show that was announced in our column's last month!! This will start off his 39 week series with a BANG! (we hope Dr. Stranges survives US!) --

EDITORIAL COMMENTS

PSYWAR V

WHY CENSORSHIP?

Recent headlines in the military newspaper "Stars and Stripes" outlined the report about an object which was bubble-shaped and transparent "with a dozen lights all the color of car headlights that have mud on them" hovering 50 ft. above ground in Castle Rock, Colorado. Then 'it' "shot straight up and disappeared shooting out a couple balls of flame".... "It was silent"..... In the same paper dated Jan. 5, 1968 was another headline describing an unexplained explosion in a secret arsenal-factory northeast of Denver, Colorado which occurred within hours of the above sightings at the small town.. One was killed and 8 injured in the blast at the factory which produces lethal nerve gas..... CONNECTION?????????

The circumstances are strange enough - but - what is stranger is the fact that it took a MILITARY newspaper to print BOTH stories at once. Our civilian ones wouldn't dare as it would cause 'panic'. The governmental 'powers that be' have decreed that the American public shall NOT be kept informed as to UFO'S. It apparently has no such qualms or reservations when it comes to it's own personnel.

Obviously, the type of vehicle described (being bubble-shaped, silent and transparent) is NOT a 'test vehicle' of ours. Our technology is vast - but- not vast enough for this! Other stories about UFO'S have appeared in the military papers such as "Snippy", the photo that was taken in Climax, Colorado and the researchings of the good Dr. Condon in Colorado. (Again! Colorado!) Which all adds up to the fact that the military are more informed than the public! Which in turn brings up the fact that saucers are 'serious business'.

LET US THEORIZE: How would YOU like the responsibility of telling the general public that not only do 'saucers' exist -- but that SOME of them are NOT benign and benevolent? After denying them for 20 years - how could YOU go about a complete re-educational program? Point One: The general public is NOT too trusting to the Air Force because of their mis-handling of the situation (under orders, which they do not know). They have been called liars, mis-fits, mental cases and blind! NOOO - they would NOT just suddenly start calling upon the Air Force with the sighting data, contact cases or landings. But - the government wants and NEEDS these reports. How to get them?

Point Two: Simple! Create an organization that WILL appeal to the people. Will gain their confidence and trust. Will pat them on the back and supply an outlet for their ufo frustrations. Such an organization will 'front' for the military and the government and will supply them with all the data that is required. Sooo- use a little reverse logic - condemn those in 'power' and offer a refuge! Of course the general members of such an organization would have to be kept in the dark, but, that can be done. Staff it with respectable scientific 'names' and retired officers and you have a ready-made arm to help! But- sometimes 'hitches' occur and the members do not want to have to adhere to a strict 'party line'... Or they find they have minds of their own. Then certain 'stories' get bungled! Sound sort of familiar? Remember - tis only a ScoopTheory!!!!!!!!!!!!!!

Further developements on the Russian UFO situation - "The statement was written by Prof. Zigel... Professor Zigel expressed "profound respect" for the work of some American scientists who, he said, "are with good reason trying to attract the attention of America's scientific public to the UFO problem." Alluding to difficulties experienced here by scientists like himself, who take seriously the reports of sightings, Professor Zigel said: "Unfortunately, certain scinetists both in the United States and the Soviet Union deny the very existence of the problem instead of helping to solve it."..... In some cases, the crescent dwindled into a disk or dot. Such an object, sighted in the Ukraine last Sept., was reported to have executed a maneuver when approached by a plane. The scientist cautioned, however, that this report "certainly needs verification." Astronomers in Kazan, set the diameter of the crescents they observed at 500 to 600 meters (1,640 to 1,840 feet) and their speed at about five kilometers (3.1 miles) a second. Professor Zigel also described daytime sightings. He noted that the classification of the objects observed in the Soviet Union fit into the patterns observed in the West, particularly the United navigator of civil polar aviation, observed a vehicle resembling a big pearl-colored lens, flying parallel to his plane over Greenland..... "The UFO phenomenon is a challenge to mankind," the Soviet scientist concluded. "It is the duty of scientists to take up this challenge, to disclose the nature of the UFO and to establish the scientific truth."

AIR FORCE RAPPED ON UFO PROBE METHODS - Princeton - A top Air Force consultant on UFOS said yesterday that the Air Force does not investigate UFO sightings thoroughly enough. "None of the thousands of cases in the AF files has ever gotten the FBI treatment - every clue followed up and every person tracked down." Dr. J. Allen Hynek told 200 scientists at Princeton University..... "For twenty years, the AF has been operating under a hypothesis that since 90 to 95 per cent of the objects reported are not really UFO'S, if we try a little harder, we can identify the remaining five per cent." "The Air Force's hypothesis is so firmly entrenched that the service reasons, "if we know in advance that thorough investigation will show that any reported UFO case will prove to an identified flying object, why waste taxpayer's money?" Hynek called this the "Galileo syndrome," Galileo discovered sun spots in the 16th. century but couldn't persuade his friends to look through the telescope. "They said that since the sun was a symbol of God, it must be perfect. Hence it couldn't have spots and it wasn't worth the trouble to look."

..... CONTINUED

He added, "You might think that the AF filed of 12,000 reports are well organized, with cross references and machine-readable data, but they aren't. The reports are just pieces of paper. A few years ago I proposed a computerized system and was turned down flat."... Hynek cited what he considered more reliable than average reports of UFOs from the United States sailors and policemen who had radar confirmation of their sightings. Hynek said the reports were not intensively investigated by the Air Force, and added, "The word of a policeman is usually enough to put you in jail, but he isn't believed when he reports a UFO."....."I don't speculate on the origin of these objects, because I'm afraid to lose by objectivity." However, he discounted completely the idea that so-called flying saucers are secret military devices. "First of all, you can't keep a secret for 20 years. Second, you don't test secret devices in 75 countries. And if we had the kind of propulsion system described in ufo reports, we wouldn't be using the old-fashioned method at Cape Kenedy....."

Fort Morgan, Colorado - Oct. 23, 1967 - Three men were returning from a hunting trip. They were traveling on Route #34 and were just east of Fort Morgan, when their attention was drawn to what they thought was a falling star. The star, or what they knew for certain now was NOT a star, continued to fall until it was about to crash on the highway - then it leveled off and began to pace the truck in which they were riding. For the most part, the 3 men sped along at 64 MPH; often times they would slow down to only about 30 mph but the strange light continued to pace their vehicle very obligingly at any speed they chose. The light, which resembled an outdoor mercury light, would pace them either to their right or to their left at a distance of 300 to 1,000 yards distance. When the object would cross the highway, it nearly always moved ahead of them - crossed the roadway and then permitted the truck to catch up.... Several times they stopped to view the object with 7 power binoculars. The object would hover at a distance and on these occasions they were able to get their best look at the craft.

They described it as being at least 50 feet in diameter with a very flat top, rectangular in shape, three times in width to one in height. The rectangular section was divided by distinct black lines forming several sections - below this was a large umbrella-like glowing area.... Upon reaching St. Francis, Kansas they came upon a service station which was open. Since the strange light joined them they had traveled some one hundred and eighty miles. They pulled into the station with the intention of pointing out the object.... At this point the light began moving east rapidly at a 45° angle and was soon lost from sight.... UFO PARLEY URGES WORLD TO BEWARE - Nov. 24, 1967 - Mainz, Germany -
Flying Saucer enthusiasts from 18 countries have called on all governments to work out emergency measures to deal with eventual landing of beings from outer space. A resolution adopted by the 7th. World Congress on Unidentified Flying Objects here said that increased reconnaissance activity by ufos suggested an unfriendly approach to earth. The resolution, submitted by a New York group, INTERCONTINENTAL U.F.O. RESEARCH AND ANALYTIC NETWORK, appealed to all countries and the United Nations to unite and to solve the "vital and overdue global problem" of ufos.....

Yugoslav Claims he photographed UFOS - Nov. 11, 1967 - Belgrade -
An amateur astronomer claims he photographed 3 flying saucers over Zagreb on Thursday night. Damir Gradis and other young amateurs were watching the sky from the observatory in Zagreb. They claim they saw 3 ufos. Two "hung" in the sky, while the third moved slowly, without noise, they said. All gave off a bluish colored light.

The following is a transcript from part of the KOL Radio - 7:40PM - newscast from Seattle, Wash. on Dec. 6, 1967 --- "... a power failure has hit the Kirkland area according to the Puget power company. Checking with Jim Spring who lives in the area, KOL obtained this description of what's going on: (garbled) -- when they come on, once and awhile, real dim ... and right now... only every 30 seconds or so, there's a red or blue flash in the sky. They're coming from different places. I don't think it's lightning, because it's red and blue and all different colors. Power Company officials say they don't know anything about the bright flashes of light, but are trying to correct the downed lines attributed to high winds in the area."

NOTE BY A UFO ORGANIZATION : UAPRO - Mr. Spring reported that the lights were going on and off in almost perfect synchronization with the flashes of lights in the sky around the Kirkland, Washington area. UAPRO phoned Mr. Spring but it was reported to our office by his daughter, that he was in the hospital! Apparently, he had received some ridicule, and preferred to remain silent.....

DEC. 22, 1967 - 11:50 PM - 12:15 AM - Holmes County, Ohio -
Six teenagers - four boys, two girls - 14 to 17 years old, were traveling on a road west of Millersburg near an area known locally as Little Switzerland. They came upon an auto in a ditch - its occupant an adult female, seemed to be gazing intently into a nearby field. When the group of young people looked in the same direction they were quite amazed!

Some one-hundred yards away, apparently sitting on the ground, was a silvery disc-shaped object glowing very brightly. Red, green orange, purple and blue lights seemed to revolve around it's perimeter. As they watched the disc rose to an altitude of 50 to 60 feet and approached the two automobiles. It seemed to hover over the autos briefly. At this time the occupants of the autos became very WARM, almost unbearably so. Then the object shot straight up and was gone. Almost immediately the police arrived on the scene. They gave the teenagers a stern lecture for being out so late and sent them on their way. The police went to the aid of the lady who's car was in the ditch. At it's closest approach the object appeared to be some 35 ft. in diameter and several feet thick. It was topped off by a projection much like a point of a pencil. It was extremely bright and was difficult to look at directly..... SOURCE: GOODYEAR UFO SOCIETY ..

Dec. 29 - New Jersey - A 25 minute power failure at 10:51 am Friday knocked out electrical service for 3,880 in all of West Caldwell and portions of 5 other towns..... MILFORD UFO.... - UFOS returned to the Up-county scene last night. A Paterson alderman, returning from an afternoon of skiing, reported a ufo which entertained aprox. 40 carloads of witnesses before mysteriously disappearing..... just south of here on Route 23... The sighting was not immediately confirmed by base operations officials at Stewart AFB, Newburgh, NY..... Gardiner said the UFO was a double-lighted object hovering in the sky directly above them. He said more than 30 cars were parked along the side of the road and some of the people were outside looking at the same object.... "had two bright lights several feet apart, with smaller red and green lights between them. The object hovered for about 10 min. It then moved away flashing a blinking green light, according to him." While the object was directly over them he was able to distinguish the two main lights from airplane landing lights. He described them as considerable larger. The UFO was soundless and moved very slowly. TIME: APROX. 5:30 PM --- At 6:38 to 7:32 the same date - "West Milford area hit by blackout nearly an hour." (Headline in Paterson News) "Some 700 homes in the Oak Ridge section of the Township and sections of Newfoundland and Jefferson Township were without electricity for nearly an hour ..." UNDERWATER UFO BASES

BY

DICKHOFF - UFOLOGIST

THE

SUNGMA TENZING LAMA

(The Buddhist UFO Research Center endeavors to determine the origin of Unidentified Flying Objects, to index and classify such UFO'S as being possible Spacecrafts coming from other worlds, other Solar Systems, other Galaxies.)

There ARE spaceships who use ocean floors as their base of operations or landing fields. Or must I suggest that these Oceanic landing bases of THEM that come from Outer Space in spacecrafts - were once above water, were part of continents like Atlantis - Lemuria, who since then vanished beneath unruly oceans? Yet - are still remembered by these space aliens on their star maps as land bases for their usages.

TO QUOTE A FEW INCIDENTS OF UAO'S (Unidentified Aquatic Objects)

1880 - Large steamship, "Patna", (Captain Avers) sees an enormous luminous wheel whirling around and alongside his ship in the Gulf of Persia. Or perhaps he had seen the reflection of the light of spokes below the surface from the ocean floor reflecting upwards.

1887 - Large ball of fire rising from the sea near Cape Race up to 50 feet and advancing upon the ship, remaining visible for 5 minutes. Captain Moore of the ship Siberian, mentions that such a sighting had been recorded before by him in the same vicinity.

1845 - Brig Victoria, 900 miles east of Adalia, Asia Minor, sees three luminous bodies rise from the sea, a half mile from the ship, visible for 10 minutes. The Captain of the brig, who was at the time in Adalia also saw the phenomena. (Rev. F. Hawlett)

1907 - Shafts which seemed to move around a center, like spokes in a wheel, seen in Malacca Strait by S. C. Patterson, second officer of the Steamship 'Delta'. Shafts of light come up from SOMETHING beneath the surface and were seen in the Gulf of Oman, by D. Carnegie, back in 1906 and he says that these lights or bars were about 20 feet apart and most regular.

1879 - Report from Commander J. E. Pringle of H.M.S. Vulture - navigating in the Persian Gulf confirms that these luminous beams have the appearance of a revolving wheel, with a center on that bearing, with spokes that are illuminated and their origin is below the surface -- because the luminous waves passed UNDER the Vulture..... WHATEVER WAS seen, was not imagined by drug addicts or alcoholics, but was recorded by sober individuals, by ship captains, in their logs.....

CONTINUED

WHATEVER there spawns, in space or Hell, who can submerge, having intelligence to construct and navigate these 'fantastic' to us, wheels, who rise out of their watery habitat, taking to space and then back to their home, -- should be admired as SOMETHING earth scientists are unable to reason out or duplicate, as yet!

Was it therefor the "MARIE CELESTE" and the "Joyita" who happened to be in the path of such as lay below them - that arose to capture earthlings of these ships as souvenirs, for their zoo's or for whatever weird purposes these very creatures manning these submerged wheel spacecrafts had in mind?????

Or perhaps within the logs of Martian Space Researchers it is written that it makes little difference to save men who slew one another with ass jaw-bones, or to collect specimens of such as who go around shoe thumping in the UN threatening to buy the rest of these things called HUMANS with 50 or more megatons. Will millions of years hence - will fossilized bones be dug out by another Martian expedition here like from quarries of petrified Mayapan charnel houses. These spatial 'tourists', together with other space aliens from Altair, Detelguise, could have told these earthlings that a better world begins -- with individual creatures -- regardless of WHERE they originated.....

ALERT ! BY STLama - Dickhoff - Ph.D.

Peculiar these Ufologists be,
Explaining THINGS you have yet to see
Why queer shapes come into sight,
Flying by day, flying by night

Of why they spin, apprearing bright,
Bathing all in unearthly light,
Of why they probe things here for real,
Searching earth, do spy, do steal!

Of why they never leave a clue,
Useful to me, useful to you!
Of why they spacenap humans with delight,
With Spacecrafts, for a one-way ride!

For what here they take away,
Includes earthlings, by force of dis-beam ray
Somewhere winds up as gourmet stew,
My friend, it could happen yet to YOU!

Of this we speak, us Ufologists,
Tearing away an ancient brainwash mist,
Of such as coming here from Space
Are but a lying - dangerous - disgrace.

U.F.O. DETECTOR

Here at last...a device for detecting magnetic fields. In response to numerous demands for a sensitive, reliable instrument, we proudly announce the full-scale production of our SENTRY Model U.F.O. Detector.

This is not a toy, but a scientific instrument for use by serious researchers. This is just the kind of physical confirmation U.F.O. sightings have long needed.

The SENTRY is equipped with Audio/Visual alarm systems for 24 hour magnetic surveillance of your area. It can operate indoors or out. Eliminates tedious hours of "sky watching". Just think how many "over-flights" have gone unnoticed in the last few years! Most of the U.F.O.'s. reported are silent. They are inconspicuous in the daylight hours. This is the only system we know of that will alert you to an approaching U.F.O. while you relax in the comfort of your home!

* Advantages of the SENTRY Model U.F.O. Detector *

1. Complete ease of operation...set and forget.
2. Inexpensive to operate...runs on "penlight" batteries, but only when responding to a U.F.O.
3. No construction, wiring, or "kit building"...the SENTRY is completely assembled and ready to operate.
4. Compact design...makes for easy transporting for use in the field or from room to room.
5. Sturdy construction without compromising sensitivity.
6. Will last almost indefinitely...hardly any moving parts, requiring no lubrication, maintenance, or adjustments.
7. Attractive appearance...you'll be proud to display your SENTRY to anyone!

Until now, sightings have been made with luck. The SENTRY replaces luck with science, and coincidence with certainly. As a matter of fact, without the SENTRY U.F.O. Detector...more than ever before...you don't know what you're missing!

To get your SENTRY Model U.F.O. Detector, send \$10.00 cash, check, or money order to...AERIAL RESEARCH SYSTEMS

WHO FLYS THE SAUCERS? --- (Adapted from a talk by RILEY HANSARD
CRABD -- DSRA - PO Box 548 - Vista,
California -- 92083)

We know from massive evidence that the Flying Saucers are here. They are real. They have been seen and reported by the best qualified observers. They have been photographed and otherwise tracked or recorded on the best scientific equipment. Now it is high time to look more closely at the actual contacts and contactee stories of the 3-D solid occupants of the alien space ships.....

Why are they here? One surprisingly different answer to this question was received by DSRA almost 21 years ago. The first Saucer sighting reported in our Round Robin Journal occurred over San Diego, California the night of Oct. 9, 1946. This black, torpedo shaped space ship circled around over the city for some time that night. It was seen by hundreds of people including Mark Probert. His remarkable ability as a trance medium had already been well demonstrated to our late founder-director, Meade Layne. The next day, Oct. 10, Meade called Mark and asked for an opportunity to talk to some of Mark's controls about this startling new phenomenon. Mark agreed. During the trance session Meade recorded these significant remarks from Control Rama Ka Lo.

"This ship comes from west of the moon. No, I cannot get the name of the planet. It is many thousands of miles. No, I cannot say how many thousands, but very many. It is a mechanical bird. These people have been trying to contact the earth for many years. The earth is now sending forth a strong ray or column of light, AND this makes it easier of approach from other planets. Yes, these people come in peace. They are much more advanced than you are. Their bodies are similar to yours but much lighter. They would like to make a landing but they are afraid of their reception. They know they will not be understood. They want you to get a group of scientists who will meet them at some isolated spot. (This was finally done at Edwards Air Force Base in 1954.) The matter must be kept secret from the public at present or these communications do not say anything to scientist about psychism or they would not understand and might reject the whole matter. Much will come through psychics in the next six months. You must work quietly at this. The new telescope (Palomar?) will amaze scientists."

THE COLUMN OF LIGHT FROM THE EARTH The earth is sending forth a strong ray? And this is attracting Visitors from outer space? That's what the control told us in 1946. Of course this is not a physical thing. Corroboration, if we are to find it, would have to be in occult literature.....

----- CONTINUED -----

.... But a dispassionate analysis of the Flying Saucer data indicates that this "wordless invocation" arising from the earth as a column of light has attracted the BAD GUYS as well as the good guys from outer space! There is a great crisis here and all sorts of opportunists are moving in to take advantage of it. This phase of the Flying Saucer phenomenon is being dramatized for millions of Americans on the weekly television show, "The Invaders". I recommend that you watch it.....

JELLY BAGS AND TIN CANS - Now we ask you to consider another ESP message received on March 8th of this year, 1967. The medium is Marian Hartil..... The control identifies himself as Hanford, a former earthman. He is now a member of the Astar Command.... Hanford writes through Marian that the Jelly-bag type of Flying Saucer creatures "are not really human but sub-human, not Astral but Etheric robots. They are governed by others who do not wish to be known for their nature is destructive, and they wish to use the surface of the earth and colonise it if possible. The JELLY-BAGS are sent here to chart, and if possible, to bring back flesh-type creatures either animal or human." (Note: (SS) - "Jelly-bags" refers to the type of creature that attacked the Swedes, (2) at a date in 1958, who saw a saucer, glowing, and with 3 legs, just off the roadside. Suddenly they were attacked by four creatures about the size and shape of four-foot jelly-bags. The creatures didn't seem to have any noticable arms or legs yet they had excellent grasping ability. They also stunk, like stale swamp water.).....

THE TIN CAN ROBOTS -.... This one occurred near Hopkinsville, Kentucky on Sunday evening, Aug. 21, 1955 at about 7 PM. Cecil Sutton, standing in the doorway of his rented farm home heard a hissing sound about a block away and saw a bright light come down in the field... As he stood there, wondering what this was, coming from the field were about 10 or 15 little green men.

... These were hideous little creatures about 4 ft. tall. They had huge mouths in ugly faces. Their arms hung almost to the ground. Their bodies were shiny as though nickle-plated. Strangest of all, though they had legs they didn't seem to walk. They just floated or glided along toward the house. The startled Kentucky farmer dashed back down the long hallway to the livingroom to tell the rest of the family and his friend, Taylor, "Get your gun! We're being invaded!" Sutton got his shotgun and loaded it. Taylor had a 22 target pistol with him, and four boxes of bullets. He armed himself. Sutton's mother pleaded with the two men not to open fire. After all, the "Invaders" hadn't made any hostile moves.

About that time one of those ugly heads, with big, grinning teeth and pointed ears, leaned down over the edge of the roof and peered in through the living room window. Sutton raised his shotgun and blazed away. The ugly face disappeared. Taylor raced down the hallway and out the back door with Sutton right behind him. A long arm reached down from the roof overhang and grabbed Taylor by the hair..... CONTINUED

He wrenched himself free and ran on out into the yard. Little green men seemed to be all over the place, sitting on the roof, the fence, the water barrel. Taylor opened fire on that one and heard his bullets ricochet away into the dusk. It sounded as though he were hitting solid steel! The bullets were effective, to a degree, as the little green man was knocked rolling off the barrel by the impact. But, he just righted himself and floated away, back toward the glowing UFO down in the field! Sutton opened up with his shotgun, too, and the one-sided gun battle went on for hours, or at least until the marksmen ran out of ammo.....

THE "FIFTH COLUMN" AMONG US Professional journalists are now mining the mountain of Flying Saucer data for articles for national magazines. We are thankful that their objective conclusions now support our own, after 20 years of prowling this particular borderland.

Irving A. Greenfield, writing for Dell Publishing Company's "Flying Saucers, UFO Reports No. 2," asked the obvious question, "Why would the Visitors come?" and comes up with three routine answers for their presence. 1. To explore the earth. 2. To gain knowledge of its inhabitants. 3. To conquer the planet.

"We must consider the possibility of their planting a FIFTH Column on earth," he writes; and he reviews some of the contactee stories which indicate the Visitors are interested in our type of sexual reproduction; 1. To gain or produce a mutant between our type and theirs; 2. To gain control of the earth by affecting (or stopping) our normal reproduction. Greenfield refers specifically to the Barney and Betty Hill contact of 1962 (reviewed in "LOCK" magazine last year) in which the Visitors seemed mostly interested in external characteristics, "skin samplings, hair and other features to successfully reproduce a human-like robot"...

.... On pages 836-837, Mrs. Bailey's Teacher (Alice A. Bailey - "Treatise on Cosmic Fire") - discusses the profound philosophical problem of good and evil in space. There very definitely is War in Heaven, he says, and it is caused by late-comers in any scheme of evolution. They still want to live out a full cosmic life -- if we can use that term to paraphrase him -- but they find themselves as members of a decaying solar system. This means that they are forced to look for and find a new home -- if they wish to continue their evolutionary education at the physical-etheric level...

(SCOOPNOTE: We regret the lack of additional space for this most informative and interesting article. However, the BORDERLAND SCIENCE RESEARCH ASSOCIATION publishes an excellent journal --- which is included in the Association membership of \$6.00 per year. The December - 1967 issue contains the remainder of the above article, and we recommend it to all serious researchers with open minds. SEND TO: The Journal of Borderland Research

URGENT MESSAGE TO ALL EARTH BEINGS

BY

WHITE STAR

P.O. Box 307

Joshua Tree, Calif.

ALTRAN OF JUPITER SPEAKING ... Reporting on present ENERGY CONDITIONS existing throughout SOLAR SYSTEM SOLON. Particularly conditions of EARTH STABILITY and ABILITY to absorb and properly disperse incoming COSMIC WAVES. Solar system presently fringing COSMIC BARRIER prior to ARC break-through. Entire SYSTEM undergoing the structural-vibrational change. Present Earth atmosphere, devoid essential components to hold balance between elements, it is not sufficiently stable to pass through the BELT BARRIER without combustionable conditions causing outbreaks of VIOLENT atmospheric reactions. This would create winds, storms and fires ... plus tension explosions tension in cellular structures of ALL MATERIAL FORMS, animate and inanimate.

It is a NECESSITY for PLANETARY STABILIZING GROUPS, acting as anchors for INCOMING FORCES, to align themselves with their CONTACT SOURCES ... to be ready at a moments notice, wherever they might be at any given time, to receive and ray forth according to prior instruction patterns. This is an EMERGENCY COMMUNICATION to ALL workers, trained by their assigned teachers, to remain ALERT and SINGLE PURPOSED at all times. All JUPITERIAN FORCES working from Planetary upper atmosphere, are on constant ALERT. Through our great dynamos of power, strategically located around the Earth in stationary position kept constantly informed by the ORBITERS, there is pouring forth into Earth's lower atmosphere, CONDITIONED ENERGIES to OFFSET atmospheric unbalance... as much as it is permissible and possible to do.

Earth's atmosphere, at present, no longer contains sufficient balance to even compensate for planetary releases of by-products from combustionable materials, and refuses which are released into the air are no longer dissipated and purified, but remain drifting in Earth's atmosphere, or laying in hellish pockets..contaminating the atmosphere in areas of large population. RELEASEMENTS of BOMBS and other war disturbances ... releasement of ATOMIC atmospheric radiation and nuclear unbalance, plus the frantic mental energies that cloud the mind energy fields.. all have gone to create a RED ALERT for the entire planet. These are not facts unknown to your Earth scientists, but FACTS unknown to your scientists are these:

...There are MESURES that can be taken to bring about a re-balancing and those measures are AVAILABLE to HUMANITY in the form of BEINGS which if WELCOMED instead of REJECTED, could come into closer proximity ... effecting a greater measure of balancing.... Our only recourse, by COSMIC LAW OF RIGHT ACTION, is to eject into the atmosphere... COUNTERACTANTS which will assure planetary security, but will TEND TO INCREASE HUMAN UNREST, as the Nature elements will respond without resistance, but man's brain will block the sensations ...ONLY those who accept these accelerating energies with relaxed faith and cooperation will survive without marked physical and emotional results. "A DIAGNOSIS OF DECEIT"

Now that ufologists have been relegated to the position of congenital mental deficient by the United States Air Force, along with millions of other so-called 'Saucer believers', we may now say and do what we wish without any fear of being considered odd or strange.

If we see lights in the sky, or see strange craft landing, these are but symptoms of our obviously catching sickness. As a matter of fact, according to the latest survey, 10 million Americans are fellow sufferers. The only persons seemingly immune to the 'Ufo Bug' are the august officers of the Air Force. I say officers because many enlisted men sight ufo's all the time. They, too, have fallen prey to this mysterious malady.

What is of primary interest to us, other than the benign attitude of the Air Force, are the actions of other UFO investigative organizations who seemingly exist for one purpose and that is one of making money. The size of the organization is more important than Research, the publication, rather than investigation of the facts, more demanding. Those persons, using the rather pretentious title 'Ufologist', little understand the scope of the UFO phenomena or it's vast importance to the world in general. How can they realize this when the amount in the treasury is top most in their minds?

I am not taking on any one specific organization, rather, I am pleading for YOU, the members and subscribers, to demand better results. YOU are, after all, the backbone of these groups regardless of size. Without YOU, they cannot exist. In case you are wondering what brought this scathing pseudo-editorial on, I refer you to one of the largest UFO Organizations in the country whose publications recently concerned and concurred with the Air Force findings, in the 'explanation' ridden "Snippy" case in Alamosa, Colorado. Subscribers who do me the honor of reading this column each issue will know my position on this case via the exposure I have given each and every explanation project 'BlueBook' pulled from it's grab-bag of natural phenomena. As a matter of fact, I don't think they even did us the honor of grabbing an explanation, they just up-ended the bag and let a few what-have-you's fall where they may! ..CONTINUED..

INTERNATIONAL DATELINE - CANADA -

PHOTO ANALYSIS REVEALS DITTER PICTURES FAKES! "Probably the most publicized photographs of 1966/67 were those of Zanesville, Ohio barber Ralph Ditter. They were taken on Nov. 13, 1966 outside of Mr. Ditter's home, and were seen in his barber shop by customers for some time before the press got hold of them. As Mr. Ditter said, he used them "as a conversation piece" at the shop. CAPIC photoanalysis team of P.M. Moerenhout and A.K. Vezina, both members of the Professional Photographers of America and the Professional Photographers of Canada, obtained the original prints from Mr. Ditter.... In Mr. Ditter's report, he said he had taken one picture while the UFO hovered over his home, then a second that did not turn out and then a third as the object sped away. However, on the prints we received, the first photo was No. 8, and the one taken while the UFO was allegedly speeding away was number 6. One other small point; we defy anyone with a Polaroid camera to take a perfect exposure with the first picture of a series, aim the camera again, and not come up with a perfect exposure for the second photo in that series. CAPIC checked with the Polaroid company on the possibility that their film had been misnumbered in reverse order, but according to the reply we received, this is absolutely impossible. According to Mr. Ditter's account, only a short period of time elapsed between each shot. However, on having the shadows analyzed - in each photo, it was determined that more time than Mr. Ditter could possibly account for was taken in shooting each picture.....

MISSING PROSPECTOR RETURNS WITH UFO SAMPLES - CALGARY (CP) CANADA

An intensive search for a Calgary prospector ended Saturday when Lorne Grovue, 30, sauntered along the Kananaskis-Coleman highway on his way back to his car and came upon an RCMP patrol. Sporting a 6 day beard, Grovue said he hadn't been lost at all. He had run out of food and was returning to his car to go home. He went into the heavy bush country 80 miles southwest of here to look for an object he says fell from an unidentified flying object last July. He told friends he would return Tuesday. The search was organized after freezing temperatures and two feet of snow struck the area..... He said he brought back some samples including "silver droplets" he scraped from a hole in the ground. He said there was evidence of fire around the hole.....

SAUCER SCOOP highly recommends this Canadian UFO Organization for its integrity and its very interesting and informative publication. Mr. A. K. Vezina is one of the most respected of the Canadian researchers..

The Air Force seized the 'killed by lightening' theory with enthusiasm because that was a new one and people were getting tired of swamp gas, heat and light inversions and etc, ad nauseum. Despite the U.S. Weather Bureau declaration that weather conditions were NOT favorable for an electrical storm (it rained BEFORE the horse was killed), they had said it and by gum they were going to stick by it, how ever ridiculous!

We may excuse the Air Forces being secretive and generally messing things up because we are used to that, but that the alledged Holy of Holies among American UFO Organizations should agree is beyond comprehension! In headlines, their publication declared that the Alamosa case is solved and seeing that their readers are NOT allowed to membership in other organizations, they will be forced to believe it. They, the organization, base their entire case on the fact that there were footprints all around the horse, making it obvious someone had come along, found the horse and put it out of it's misery. I HAVE TAPE RECORDING ON FILE made by Mr. King, the ranch owner, and Mrs. Lewis, the horse's owner, clearly stating that when they found the body, there were NO footprints anywhere near the site and common sense tells us that NO ONE walks on fenced, private property far from a public road, finds an injured horse and, without, knowing the extent of the injury, assumes the responsibility of a lawsuit by killing the animal. It not only makes little sense - it defies logic! Let us drop common sense and logic and consider the Air Force and the un-named UFO Organization is correct they say they found 'nothing abnormal about the animals death.' This will be hard but - pretend you are an Air Force Officer, that helps considerably!

We are walking in the middle of someone else's property, miles from anything, during a thunder storm, if we are to follow their 'thinking' correctly. Alright, here we are, lightening crashing about, raining and we are taking a very lonely stroll. HARK !! We spot a wounded animal. As Mrs. Lewis has said many times, the horse "Snippy" was obviously an expensive one and in very good shape. Never-the-less, we are filled with pity and compassion so we pull out our handy, razor-sharp scalpel and slit the poor creature's throat! AFTER that KIND act, very kind in fact because we didn't even notify the owner or disturb them. (not everyone likes to walk in the rain, you know!) We remove the brains, internal organs, strip the neck and skull, sprinkle our lead-lined, Boy Scout pouch of radiation about, burn a few 'exhaust' marks on the ground and calmly continue our evening walk, knowing we have done our good deed for the day!

After you recover from the headache you might get trying to force the impossible version above on your brain, try to explain WHY the major UFO Group backed it up! Before you start, let me warn you ... you are in for another headache!

..... CONTINUED

The actions of our anonymous organization are worthy of contempt. The only reason I do not mention their name is because your Editor, Joan Whritenour, feels, and rightly so, that petty inter-organizational feuds help nothing and only hinder our research into the UFO phenomena. Not only is she correct in this feeling, she is 100% correct. My motive here is to let them know that they are walking the thin line of deciet and that walk may eventually prove fatal, not only to the organization, but to mankind in general.

Money, the number of subscribers and 'quickie' investigations have no place in a field where man is faced with the fact that life as we know it may be on the verge of extinction by beings we cannot even begin to understand. If, and when, that time comes, the burden of guilt will lie on the Air Force, the various world governments and the fat account books of certain UFO Organizations.....

WORLD UFO PROBE SOUGHT BY SOVIETS - MOSCOW (UPI) - Dr. Feliks Zigel, astronomy professor at the Moscow Aviation Institute, has released findings of a team of Soviet scinetists of sightings of "luminous orange-colored" flying saucers over Russia. He called for global investigation of the phenomena.

The statement by Zigel, issued to the foreign press through the News Agency Novosti but not yet circulated domestically, follows revelation of Air Force Major Gen. Porfiry Stolyarov in November that an official commission has been established to investigate Unidentified flying Objects (UFO). Zigel said the UFO Phenomenon was " a problem of prime importance that can be solved only by a joint effort of all the scientists of the world." "It is safe to claim that the UFO problem has assumed a global character and therefore calls for global research," he said. Zigel reported that a "big team" of Soviet scientists and specialists has studied 200 reports of sightings - including observations by Kazan astronomers and the astronomical station near Koslovodsk - of UFOS seen over the Ukraine, Crimea and Caucasus in July, September and October of 1967.

"The most characteristic type of UFO," wrote Zogel, "is a luminous orange-colored crescent with a diameter of 15 to 20 degrees of arc, flying with its outward curve forward. Its surface is only a little duller than that of the moon."

"The horns of the crescent throw out jets, sometimes with sparks. The outer contour of the crescent is sharp and the inner contour - blurred and wavy." "A bright flaming disc preceded by a crescent is observed sometimes. Sometimes the crescent is preceded and flanked by what look like first magnitude stars which keep at a constant distance from the crescent."

Rick and Janie Hilberg

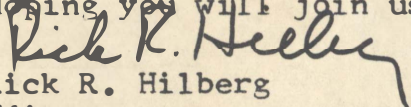

Dear Friend:

Since 1947 the American public has been aware of mysterious objects in the sky. Literally millions of persons have reported spotting what the press refers to as "flying saucers." These saucers have been spotted over all the main metropolitan centers of the world, as well as over barren wilderness. Saucers have been spotted from speeding jet airliners, have caused auto engines to stall, and have caused serious physical injury to some witnesses. In other words we are faced with a tremendous enigma, one that staggers the imagination!

UFO MAGAZINE was formed in 1962 with the purpose of making some common sense out of the saucer mystery. In the time since our founding we feel we have done much to clear away the stigma of mysticism and fakery that has unfortunately clouded UFO research. We wish to invite you to join us in our quest for the truth.

UFO MAGAZINE is a professionally printed 6x9 inch magazine published quarterly. Our pages contain interesting and worthwhile articles on recent UFO reports, as well as well-reasoned speculation regarding the elusive disks. A one year subscription is two dollars (\$2.) in the U.S. and Canada, three dollars elsewhere. Fill out the form on the bottom of the page and mail today with your check or money order.

Hoping you will join us in our search,
